15-532-302

Date: 12.05.2022

Name: Pascal Emmenegger

Keywords: Swagger UI, API documentation, Training Service Optimization, Training Service Tests

Overall Progress: 3

Activities completed:

- US8: Document Training Service (wiki, repository readme, and API documentation)

- US8: Document Prediction Service (wiki, repository readme, and API documentation)

- Together with Nicola I improved the training service performance. We implemented an early stopping mechanism during the training process by using an error convergence.

- Worked on enhancing the SonarQube properties and settings for our project

Current activities:

- Training Service minor bugfixing

- Improving quality check (code smells, etc.) with the help of SonarQube

Goals or Activities for next deliverable:

- Documentation (wiki, repository readme, and API documentation)

- Swagger UI minor enhancement and bugfixing

Immediate attention: -
